Cost-Effectiveness Study on Satellite SIGINT Requirements (COMOR-D-69/21)

1. The Committee held a special meeting to consider the above subject. As of this meeting the views of COMOR were as follows:

a. The majority SWG views should be submitted to the Board.

b. The CIA views as shown in Tab B of the reference should be submitted as a minority view.

c. The transmittal should be revised by the Chairman along the lines discussed in the meeting for consideration at the next regular COMOR on 18 February.

d. The [] NRO comments on the papers were invited; [] reported that up to the moment the [] NRO preferred not to submit a written paper although it was quite prepared to respond to questions. In the light of the Committee's feeling that a written commentary by the [] NRO would be helpful, [] said he would discuss this further with his office.

2. The Committee was not entirely satisfied with its procedure indicated in subparagraphs a and b above since it recognized that it left the job of finding an answer up to the Board. However, at this time it saw no better alternative though further study might suggest some feasible approach.
